

Sand, Lime Brick Works

A. Berg, of the firm of A. Berg & Sons, with Canadian headquarters at Toronto, is in the city. Mr. Berg is the inventor of, and is here introducing machinery for the manufacture of brick from a combination of sand and lime, an industry which has attained large proportions in Eastern Canada, where six plants are in operation and the United States.

The press which Mr. Berg controls makes 36 bricks per minute under a pressure of 300 tons per brick, and the plant can be run in the winter as well as in the summer.

The plant proposed for here will have a 200 horse power boiler and a 75 horse power engine.

The composition of land and sand used is in the proportion of 94 per cent. of the former to six per cent. of the latter, and is run through an automatic measure, which maintains the true proportions.

The lime is slacked by steam and the two commodities are delivered to the press in proper ratio.

Bricks are then placed in a car and delivered into a circular steam jacket cylinder 60 feet long and holding 20,000 bricks or 20 car loads and in 10 hours the bricks are ready to come out of the cylinder, where they were cured by steam, as the cylinder has sealed enclosing doors.

Every brick that goes in a perfect form, comes out likewise and by the process there are practically no culls.

An automatic action process separates all clay or loam from the bricks during the drying process. \$20,000 has already been subscribed and the plant will be likely constructed on the Gallagher Hill, on account of the large quantity of sand available. The amount of lime used being small it can easily be hauled to the scene of operations. The brick can be made ready to go into the wall in 36 hours of operation.

Mr. Berg shows several photographic graphs of splendid brick constructed of the sand and lime brick.

Driving Club Formed.

A meeting was held yesterday afternoon at the office of Miller & Gallagher, at which an association was formed under the name of the Strathcona Driving Club. J. B. Miller was elected President and H. Carmichael, secretary.

A committee composed of T. Richard, A. McLean and J. B. Miller, had previously interviewed the executive of the Strathcona Industrial Exhibition Association, and secured the use of their grounds. A class-committee consisting of Messrs. Elliott, Richard and the president was appointed. The first meeting will be held on Wednesday, May 5th, at 2.30.

"Bob" Holmes Nominated.

(Special to The Chronicle)
Goderich, June 4.—"Bob" Holmes was yesterday nominated for the House of Commons by the West Huron Liberals. Holmes was defeated in the last election.

Essex Farmers Discouraged.

(Special to The Chronicle)
Windsor, Ont., June 4.—The Essex corn crop, which is usually at this time of year ready for cultivation, has not yet begun to appear above ground, and the farmers are naturally much discouraged. Essex is the banner corn county of the Dominion, and that would pay better to hold the grain than to plant it.

Will Boycott England.

London, June 3.—The Irish society called "Sinn Féin," meaning literally "For ourselves," composed of the best of the anti-Britons, a majority of them young men, has gained considerably in importance lately. Its programme is for the complete boycott of England, for the Irish members to decline to attend Parliament, for Irishmen to refuse to enter into business or social relations with the English in Ireland, and, as far as possible, for Irishmen to abstain from enlistment in the army and from buying English goods.

Edward Martin, the leader of the society, is a wealthy land owner and solicitor. Recently he was expelled from the aristocratic Kildare Dublin landlords' rallying place. This incident caused a great stir in Dublin.

The next move by the Irish members of Parliament will probably be a united attempt to induce the Government to remove Sir Anthony Patrick MacDonnell, Under-Secretary to the Lord Lieutenant of Ireland. When he was appointed in 1902 the Conservatives considered him too friendly with the Irish, but he failed to satisfy the latter.

Veterans' Land Grants.

Ottawa, June 3.—A bill will be introduced in the next session of the Commons to provide land grants for residents of Alberta, Saskatchewan and Manitoba who served in the South African war. It is likely to be introduced in November.

Introduced to King.

(Special to The Chronicle)
London, June 4.—Messrs. Dymally and Lagan, members of the Canadian Parliament, were introduced to the King today.

Methodism in Japan.

(Special to The Chronicle)
Toronto, June 4.—A cable from Dr. Sutherland says that all the Methodist churches in the land of the Mikado have been united and now form the Methodist Church of Japan.

\$94,000 for Waterworks.

(Special to The Chronicle)
Port William, June 4.—The City Council has decided to spend \$94,000 on improvements in connection with the municipal telephone and waterworks system.

Inter-Parliamentary Union For Peace.

An Inter-Parliamentary Union for Peace has been formed by the various parliaments within the Empire and the Canadian group comprises many members of the Federal House including both leaders.

The declaration which is being sent out by Hon. R. Dandridge, speaker of the Canadian Senate reads: "The undersigned, regarding with satisfaction the success that has attended the Inter-Parliamentary conference since the formation of the Inter-Parliamentary Union and in the belief that the meetings from year to year of the various parliaments is a practical step in the direction of international peace, gives his adhesion to the movement."

A copy of the declaration has been reached Dr. McIntyre, who fully endorses the idea.

Offer of \$50,000

A meeting of the Strathcona Industrial Exhibition Association was held last evening to consider the sale of the agricultural grounds. Only one tender was received. It was an offer of \$50,000, made by the late Mr. Malloch, of \$50,000, and was turned down by the meeting, the consensus of opinion being that it should pay better to hold the grounds than to accept it.

Fighting For Douk Homesteads

Prince Albert, June 3.—The rush for Douk homesteads developed into a free for all fight outside Prince Albert land office this morning and all through the night. A group of thirty men had sat on the cold stone steps, and this morning found them weak and weary and unable to resist the rush of a party who had slept and eaten and who forced them from their position. In the struggle some of those who had spent the night on the steps went through the glass panes of the door and others fought until the mounted police restored order. At 9 o'clock when the office should have been opened, the steps were held by three city policemen and two members of the R.N.W.M.P., who used both fists and batons to keep the steps clear. Another mounted policeman rode his horse on to the grandiose sidewalk but this had no much effect to antagonize the crowd. Al. Homes, chairman of the city board of works, ordered the men to take the horse of the sidewalk, but the order was not obeyed, and the alderman expressed his intention of following the men to the door for twenty-four hours and the counter claim that they had no more right than those who arrived a few minutes ago and suggested that five who had waited longer and five selected by the crowd be given precedence with those who arrived first. The doors were then thrown open, when a dozen men crowded through in a moment and the crowd, another trial of strength with the crowd in shutting the rest out.

Those who were waiting were J. F. Webster, Saskatoon, S.W., section 16; C.W. Fleming, Arrow River, N.W.; W.T. Hick, Langham, S.E.; 16; E.H. Hadden, Saskatoon, S.E.; J.J. Turner, Tyvan, Sask., S.W.; P.P. Epp, Langham, S.E.; 16; C. Brown, Saskatoon, S.W.; 24; E.V. Schurman, Langham, S.W.; 24; E.V. Erdgen, Brule, Man., S.W. 22; all in 39, 8 west of 3rd.

Edmonton Gas Franchise

The International Heating and Lighting Co., of Cleveland Ohio, who some time ago were granted a franchise in Strathcona, have by a by-law voted on yesterday obtained a similar privilege in Edmonton. The agreement with that city gives a twenty-year franchise for the operation in the city of a plant to supply artificial gas. The mains for the conducting of the gas are to be laid under the direction of the City Commissioners. The plant is to be in operation by the first of December 1908. The company will commence installation as soon as money can be got on the ground.

Another agreement giving a franchise to the Northwest Gas and Oil Company was defeated by a large majority.

The death warrant of the natural gas agreement was written in the words of the clauses granting exclusive features to that company. From the time that the gas agreements began to be discussed openly, with their relative merits, the people registered their strong opposition to granting a franchise which would be exclusive to the Northwest Gas and Oil Company, or to any other company.

A blow to raise \$50,000 for new hospital building met with the strong opposition of the city council.

Alberta Oats For China

Vancouver, June 3.—A special shipment of three thousand tons of Alberta oats will leave Vancouver between now and June 15 for Hong Kong, either on the steamship Wyeley or the Blavmont. The Wyeley is now on route from the southern coast of Esquimaux, where she is to enter the drydock for an overhauling and if she is launched in sufficient time to handle the shipment who will come to Vancouver to load. If, on the other hand, the Blavmont should be first available to take the oats she will carry them.

The consignment is being gathered together in Alberta by the Brackman-Mer Milling Company, and already a number of carloads have reached Vancouver. The entire shipment will be sacked for easy handling.

The oats, which are already in the C.P.R. yards, are of excellent quality, in fact Alberta has never been known to export poor oats. It is understood that the entire shipment has been guaranteed to run between the coast and forty-five pounds to the bushel.

Three Burned To Death

Newark, N.J., June 3.—Three lives were lost and three thousands of dollars of damage was done in the fire which started in Turn-Verein Hall on Williams. The known dead are Joseph Henrich, janitor of Turn Hall, burned to death in his apartment; Mrs. Joseph Henrich, wife of the janitor, overcome by smoke and burned to death; a child of the janitor, overcome by smoke and burned to death.

The damage fanned by a strong north-west wind spread with great rapidity and for a time a conflagration of serious proportions was threatened. Eight families occupied the floors above Turn Hall and the policemen were kept busy rescuing women and children.

Crockett Committed

Fredrickton, N.B., June 3.—James P. Crockett, editor of the Fredrickton Gleaner, recently arrested on a charge of defamatory libel, preferred by Hon. H. R. Emmerson, ex-Minister of Railways, was this afternoon committed for trial at the next term of the York county court, which opens June 18. He was committed to bail.

Death From Kick

St. Thomas, Ont., June 3.—Claude, twelve-year-old son of William Bogars, was driving a steer out of a barn on the farm of A.E. Bissel, south of Rodney, on Thursday, when the animal kicked him in the stomach. He died yesterday after suffering great much agony.

Memorable Memorial Day

Scranton, Pa., June 3.—Two murders and a probably fatal shooting made up the Memorial Day record of crime among the foreign mine-workers in Puckewau County. In a West Scranton saloon, Alex. George was stabbed to death. His assailant escaped. Near Archbold Italians attacked a party of Poles and Joes. Bodie was killed. A suspect was arrested.

To Receive Prince.

Ottawa, June 3.—William Templeman will represent the Dominion Government in receiving Prince Fushimi at Quebec. He will go out to meet the Empress of Britain in a Government steamer. Earl Grey will be first taken from the Empress of Ireland, and Hon. Mr. Templeman and Lord Grey will afterwards receive Prince Fushimi on arrival at the wharf.

Fight For A Street

Olds vs. C. P. R.
Olds, June 3.—Supt. Niblock with a force of eight police, came to Olds today to close the crossing on Second street. The residents objected, with the result that three citizens have been arrested, and four C.P.R. men. Supt. Niblock has been several times and threatened to shoot. Street is closed under protection of police.

Olds, June 3.—Trouble at Olds over an attempt by the C.P.R. to close a street crossing which has been forcibly resisted by the city authorities for several days, created a climax today.

The C.P.R. brought a force of navies and backed by Inspector Duffs, Sergeant Wilson and twelve constables of mounted police, an attempt was made to put a fence across the street. The town police made an attempt at arresting Supt. Niblock and Special Officer Roy came to the rescue. Supt. Niblock was held up by the town police. Police Inspector Duffs to read the riot act. Town policeman Springfield and Supt. Niblock were taken to the Mounted Police, while the town authorities had possession of Niblock's gun. Supt. Niblock was taken to the Mounted Police and summoned were issued against Roadmaster Bell and a town constable.

Simmons have also been issued for Duffs and Niblock to appear before the magistrate this afternoon.

Killed by Narcotic

Yorkton, Sask., June 3.—Mrs. G. A. Watson died yesterday in her room at the Belmont Hotel, under peculiar circumstances. From her condition prior to death, it appears that she was the victim of an overdose of some narcotic drug, most probably taken inadvertently. Some one knew her previous day, that she was in the habit of taking narcotics. Deceased was a former resident of this town, and was returning, it is said, in order to die on a homestead. She came back on Saturday's train, after a three month's visit at Francis who was ill on the train and had to be assisted from the depot to the hotel, where a room was secured.

Story May Die.

Grandview, June 3.—Latest bulletin from Dauphin hospital show that the condition of Jos. Story, the victim of the Meharry burglary, is improving. He was yesterday reported. The soft nose \$8.55 bullet, on surgical examination, had caused fearful laceration of the artery and oesophagus and much of the hemorrhage had been inhaled and swallowed. Story's rifle, with which the shooting was done, was carried off and hidden somewhere between Meharry siding and Strevell crossing. Winn had arrived at his homestead about 5 or 6 a.m., and when arrested, was in his cellar cooling his potatoes. He has done time for larceny.

Storry May Die.

Storry May Die.

Ottawa, June 3.—Further particulars have come to hand concerning the tragic death of Chas. B. Mallock, C. M., on Saturday. He was the son of George and Mary Mallock, a party engaged in taking hydraulic measurements from a gasoline launch. After completing operations at one point, the craft was allowed to drop down stream, and in dropping the anchor to stop again Mallock became entangled in the cable and was dragged to the river bottom. The yacht broke loose and was carried down stream, and assistance could not be rendered. The body was recovered half an hour later. Deceased was twenty years old. He has a brother, Noel, at Southern Sask., and a sister, Mrs. L. Forbes, at Stettler, Alta.

CURRENT COMMENT.

That lusty youngster in the daily newspaper fold of the greatest and best part of Alberta, except the Evening Chronicle, of Strathcona is just itching for a scrap in these days of its adolescence. It is stirred up that solid, sane and capable newspaper man, the worthy editor of the Strathcona Herald, and the printer's ink has been in column lengths. Now it has found its way on this organ of the people and is mean enough to attribute our comment on an incident of some concern to the two cities, as due to gastronomic indiscretion. "The Journal will really have to give up eating so heartily before going to bed." That is unbearable. If the Chronicle had argued the point it would have been just to us, but to hold us up in this manner, to hear them exclaim, "What a damn'd epicurean rascal is this!"—that touches us to the quick. For the Journal has always prided itself on moderation all things, but now the cake of our pride is all dough.

But the whirling of time will bring its revenge. One of those portentous days the Chronicle will grow impatient of the promises, will fear the devious ways of politicians, and grow wise. But now, what matters it? The Premier's king in Strathcona, Long live the Premier.

The above item is the result of our reference to the Journal's belittlement that the University location might be changed because of the absence of the Premier in Europe. The Journal is one of the most moderate, sensible, and worthy of our ex-changes and for that very reason, we assigned its "night mare" notion in regard to the university site to an intelligence, unusual for it in a late meal. Its equanimity despite the fact that it holds the Laurel wreath of distinction as the only genuine, sincere, pure, blown in the bottle, unadulterated Conservative Daily paper in Alberta, is both remarkable and admirable. It was because of its accustomed good sense and sober judgment that we were surprised at its sudden break into the realm of the sensational and the nonsensical.

The first evidence of hard times in the east is the presence in the city of a number of beggars, a class from which Strathconians have been remarkably free. These characters, some of whom may be deserving of assistance, should be consigned to a police and get permission to solicit alms or they should be run in as vagrants.

The arrest of a grain buyer named Belfrage the other day for defrauding the farmers of Oliver and Stony Plain ought to make the agriculturist adjust his thinking cap. Nearly every season some dishonest person comes along and offers the farmers a higher price than the elevator men are paying and the advance often gets the supply, but in the long run it may pay to deal with the man or firm that can be found when settling day comes around.

We continue today the article from the Monetary Times on the Imperial conference situation.

SOME VIRTUOUS DISCONTENT
Sir Wilfrid Laurier's statesmanship in London is the more gratifying by contrast with much of what passes for politics at Ottawa and elsewhere. There is consolation in knowing that the low estate into which political credit at the Capital has fallen is openly mourned by an increasing number of newspapers; by here and there Members of Parliament, and occasionally by politicians who are not fascinated by the mist, arise the cumbrian of the Lord's Day Observation Act.

A glance over Hansard does not improve one's pride in the quality of speakers or their speaking. The stimulant force of a debate in the House of Commons seems to have passed into history, and to remain there. The Senate—ah, yes the Senate. It has all the attributes of extreme age, except, perhaps, garrulity; but it is of an extreme age that will not know death. It renews its age, and provokes the active hostility of neither the just nor the unjust.

The Toronto Globe, with all its fealty to the Government, is still bigger than the party it serves is obviously disgusted with the failure of time in public life, for which it prescribes the remedy of the moralist in broadcloth. The Montreal Star calls

lustily for Parliament to rehabilitate itself in the public esteem by either washing its dirty linen or punishing the fellows who soil its immaculate whiteness. A Government candidate for South Toronto—perhaps the greatest mercantile constituency in Canada—was selected a week ago. It was not first asked to state his views on any subject under heaven; and, being chosen, refrained from saying a word on Federal politics because the hour was late, but too late for other politicians to discourse at length. Few believe that the narrow, mischievous partisan is any nearer extinction than he was five years ago; and it would not be hard to yield to cynicism what was meant for clearly citizenship. Neither is a mum candidate a fair example of political self-respect.

RESERVES ON THE SOIL

But easy cynicism is worse than blind partisanship. Ottawa is not Canada. There is abundant health and strength to meet every demand that a growing time can make. The reservoirs of imperishable strength are where they are not often supposed to be. Agriculture is our main resource, and no race of farmers, having to prepare for and endure rigorous winters, ever fail failed to reproduce brains, muscle and moral stamina. Our tiller of the soil is always wide-minded. How can he be, so soon after long decades of hardship? But, as a whole, the rural and semi-rural population of Canada is the best in the world; and it is broadening in outlook all the time. Adhesion to narrow creeds of all kinds is its weakening. It was wrong, because, years ago, when in communication was poor, a few settled beliefs, such as the depravity of mankind in general, and of the Sovereign Pontiff in particular, afforded a pivot around which social sympathies revolved. Daily newspapers are commoner than weekly journals were. Farm life retains most of its monotony and excessive fellowship with nature, but it makes its splendid contributions to everything that makes a country worth living in. Nothing is easier than to talk of the farmer with supercilious tolerance. But the city has nothing that the country has not given it.

(To be Continued)

Mark Twain on A. Ward.

Mark Twain's story about Artemus Ward is one of his funniest yarns. One day when Artemus Ward was travelling a man approached him in the train, sat down, and said:

"Did you hear the last thing on Horace Greeley?"

"Greeley? Greeley?" said Artemus;

"Horace Greeley? Who is he?"

The man was quiet about five minutes

Pretty soon he said:

"George Francis Train is kicking up a

good deal of gow over in England. Do

you think they will put him in a

battle?"

"Train? Train? George Francis

Train?" said Artemus solemnly. "I

never heard of him."

This ignorance kept the man quiet

fifteen minutes. Then he said:

"What do you think of General

Grant's chances for the presidency? Do

you think they will run him?"

"Grant? Grant? Hang it, man!"

said Ward. "You appear to know more

strangers than my new friend here."

The man was furious. He walked off,

but at last came back and said:

"You confounded ignoramus, did you

ever hear of Adam?"

Artemus looked up and said: "Adam?

What was his other name?"

NOTICE

J. F. WEIR,
Opposite The Chronicle Office
Somers Block

Medicine Hat's Courtesies to Calgary.
IS LOOKING TO THE CITY OF CALLEJOE
THE CIVILIZED WORLD.

From All Parts of the World Correspondence is Being Received by the One Million Club.

(Apologies to the Calgary Herald) Through the courtesy of the officials of the 1,000,000 club our representative have been able to select from a large number of letters, the following as an example of the excellent work being done by the club in the interests of our city.

Boitenheimer & Co., Toronto, writes for information: Are billboards and kioskettes upon a large scale, and would like very much to establish here if there is an opening in our city.

From Calgary an inquirer writes that he has obtained a patent process by which ancient hen fruit may be utilized in the manufacture of a product giving a great commercial value. Personally he is favorable to our city, but desires further information to lay before the directors of the company that is now being formed.

J. E. Holdmeyer desires a good position; has been accustomed to a large salary and moves in the best society.

W. J. Garbage seeks information regarding certain lands for horse abattoir and crematory purposes.

Geo. W. Featherbrain, Terra del Fuego, writes for information regarding the climatic conditions, and desires particularly to know if the soil and climate is such as would be conducive to successful ostrich farming.

Francis Leatherhead, Florida, wants some information regarding the belly River district, and is particularly anxious to know if an alligator ranch could be successfully operated in above district.

The Greatest Altitude.

Dr. Workman Camped at Highest Point Attempted by Man.

Paris, May 27.—After having explored the mysteries of the Himalayan Mountains and ascended to heights heretofore unknown to man, Dr. and Mrs. William H. Workman, the well-known American explorer, have arrived in Paris from India.

"The last summer said Dr. Workman, 'we camped at the highest altitude ever attempted by man—21,300 feet. This was in the unexplored Munkin range of mountains, in the province of Szu, Kashmir. From this snow plain, surrounded by green peaks, we ascended to the altitude of 22,720 feet, where I stopped to take photographs, as the mist was rapidly increasing, and that was 1903, when I climbed on the Chogo Lungma glacier to the height of 23,304 feet.

"For know what this means. To climb in these altitudes is a science and takes years of training. During the last five days climbing the air was so rare we could not sleep and the last two nights the thermometer registered four degrees below zero Fahrenheit (about twenty-one degrees centigrade). As we were alone between the clear sky and the snow and rocks there was danger of being frozen to death. The only warmth came from petroleum stoves such as we could carry.

"At the height of 10,000 feet we still found people, probably of Mongolian descent, raising rye, wheat, oats and buckwheat, and even at 12,000 feet, above the timber line, we actually discovered a small village where human beings were living under the same roof with goats, chickens, marmots and some strange animals. While these people acted like animals, they showed some intelligence, as they understood scientific irrigation in a crude way."

"For ages," said Dr. Workman, "the human races have been driving their kind as near off the earth as possible: it is the survival of the fittest."

"Above 14,000 feet we saw only a chitoe, or species of porcupine, and a pair of chough, birds like crows, except thinner, and with red beaks and feet. I have heard of snow leopards being found at great altitudes, but we saw none. Above 16,000 feet there was practically no life."

The Mayor's Geography.

Torontonians in common with many other citizens of Ontario have rather crazy ideas as to the location of the new cities which have recently sprung up in the Canadian West, they have a fairly definite idea as to the whereabouts of Winnipeg, Calgary and Edmonton, but outside of those points they are at a loss as to whether the city mentioned in Manitoba, Saskatchewan or Alberta. Dr. McIntyre, M.P., for Strathcona, Alta., on his return from the session

BOARD OF TRADE. The Strathcona Board of Trade is now open for business. It has a free secretary and collects information on all requests of interest to the town and district for free. Send of new notices and regulations to the Board. W. M. McArthur, President. W. M. McArthur, Secretary.

Around the City.

Mrs. J. J. McFarland will not receive on Thursday afternoon of this week.

D. Squadron, C.M.R. will drill mounted, on Saturday, June 8th, at 8 p.m.

The Eagle Land Company reports several sales of farm lands during the last few days.

The first scheduled game of the lacrosse league will be played at Edmonton, between Edmonton and Strathcona on June 14th.

A. Gray, the well known livery man found a purse this afternoon containing \$20 and hustled around until he discovered the owner which he did in about half an hour.

Leonard Westbrook, of Dungenannon, Ont., has arrived in the City and will take up his residence here. Mr. Westbrook is a contractor and builder, and will engage that business. East End Grocery man is taking a vacation in Spokane and writes home.

D. L. Ghormley, the well known that the weather in Washington state is uncomfortably warm.

The Strathcona Gun Club will meet tonight in the office of E.T. Baines. Former members of the club and interested in that department of sport, are requested to attend.

The semi annual election of officers of Strathcona Lodge No. 9, I.O.O.F. was held last night, with the following results: N.G.—W. A. Groat. V.G.—Jno. C. Wainwright. Rec. Sec.—B.L. Abram.

Next Thursday evening, June 6th, the Christian Church will hold an ice cream social on Mr. A. Davies' lawn on Lonsdale avenue. The Strathcona band will be in attendance and everyone is cordially invited. An admission fee of ten cents will be charged.

The Board of License Commissioners for this district met yesterday in the city hall, Edmonton, and all the applications for licenses left over from the last meeting were granted except two in Edmonton, the International and the Victoria, which were held over until Friday. The Commercial in Strathcona is subject to a final inspection and the new St. Louis will be inspected when the furnishings are in.

Strathcona City and Edmonton City meet in a scheduled game of football on the grounds of the latter team on Friday evening next. The Strathcona boys are the only team in the league that have not sustained a defeat this year, and they anticipate keeping up the record. It is expected that Albin Bisset and Al Kent, two of last year's team will be on the lineup and should materially strengthen it.

Wm. Heatley, from the Clearwater district was a visitor in the city today. He reports a better prospect for a good crop and cannot understand the apathy and want of confidence he hears from some quarters. The seeding is all done, the ground was in good form, and a season of good warm weather will put the crops in advance of what they were at the same time last year. Mr. Heatley has been in the district 44 years and is a progressive and observant farmer, whose opinion goes a long way to decide the question of crop promise.

Thirteen was the unlucky number of cows that found themselves in the pound this morning.

There is much complaint made about the filthy state in which the pound is kept, and owners aver that while they do not object to the penalty for letting their cows run at large, they do decidedly protest against the dirty condition in which they are turned out of the enclosure. Another complaint that is made is that unless a whole herd can be gathered in, it seems to be not worth the policeman's while to bother, and isolated cases of cows at large are not dealt with as they should be.

A Strathcona Wedding

CLATTERHAM-TOFIELD. This morning at 7 o'clock the marriage took place of Mr. Allen Clatterham and Miss Florence Tofield, formerly (course) Tofield, daughter of Dr. Tofield, at Holy Trinity Church by Rev. W.A. George. The bride was given away by Mr. James L. Porte. Miss Pearl Carney, of Edmonton, was the bridesmaid and Bert Clatterham was best man. The happy couple left on the south bound train for Vancouver for their honeymoon and on their return will reside in Calgary. The popularity of the young couple was demonstrated by the many handsome presents received.

Intermediate Baseball.

The second game in the Intermediate Baseball League was played on the Grandin Street School grounds last evening, and in point of enthusiasm and attendance was a close second to the professional game over the river. The Grandin Street School team, who were defeated by the star performers from Duggan Street on Friday night, were successful last night in downing the crack City team. Toll line a good bunch in the City team, and with some changes in the infield and practice in playing together they will make the first team in the league go home. "Hilly" Clapp is pitching for them, and he gives promise of doing things shortly. The scores are high, not because of bad ball altogether, but because of errors at unfortunate times. In the last innings last night the score was 11-9 and the City team had the bases full; still there a swift one to third, caught his man and saved the situation.

The tabulated score—

	A	B	R	H	P	O	A	E
Flamingo, c	4	2	2	6	0	0	0	
Gainer, 1f	3	1	0	0	0	0	0	
Parson, p and s	4	1	0	0	2	0	0	
Barber, 3b	3	2	1	0	0	0	0	
Walter, 7f	4	1	1	0	0	0	0	
Cree, 2b	4	1	0	1	1	1	1	
Suberland, c	4	1	1	1	1	0	0	
Mills, ss and p	4	0	0	0	4	1	1	
Alton, 1b	4	2	2	0	0	0	0	
	34	11	8	22	8	2	2	

CITY.

	A	B	R	H	P	O	A	E
Clapp, p	2	2	0	5	0	0	0	
Miller, ss	4	2	2	1	2	1	1	
Oxford, 2b	4	0	1	0	2	2	2	
McKewen, 1b	2	1	0	7	0	3	0

Richards, 1b	4	1	1	0	0	0	0	
Toll, c	4	2	2	8	3	0	0	

Score by innings—
School..... 3 0 0 0 3 0-11
City..... 2 5 0 1 0 1 0-6

The next game will be played to-morrow evening, when the City team will try conclusion with the winners of last Friday night's game, the Duggan Street team.

Chronics.

That was an unkind turn of fate to attack young Strathconian on the eve of his wedding day. As the measles—our printer's devil says it was a "measly" trick.

The Board of Trade office is being rushed to completion and will be ready for occupancy in a few days. As a complement to the secretary and the Board, the next door neighbor a well-known real estate man, in anticipation of the coming winter has ordered a new time lock for his coal bin.

Speaking of coal bins here is one from near home. The Sergeant of police asked one of his men to speak to a colored man whom he suspected of helping himself to the black diamonds in his bin. The patrolman meeting Moss said: Moss, Sergeant Molyneux says he has traced a line of coal from his shed to yours. Without any hesitation came the reply, "I see awful glad you told me, boss, 'cause I've been missing my coal for ovah a month."

A friend the other night who had two children went home to find his little girl showing a well developed case of measles and every day since he and his wife have been engaged in an anatomical investigation looking for spots on the skin.

Relatives in England advertised for a man who has not been heard from for sixteen years. He was located on the Prince Albert branch of the C.N.R. Exactly 17 years in on the last train likely.

Our esteemed contemporary, the Evening Chronicle, has had its premises repainted—green. We suppose the color has been chosen as a contrast with the surroundings and not to harmonize—Journal.

We painted it green solely as a courtesy to some of our visitors.

Here is a story, that genial Superintendent Douglas, of the Banff National Park, vouches for. A friend running an automobile across the prairie has a breakdown and having mislaid his wrench at starting, found himself compelled to borrow one. Going up to the shack of a Swede, he said, "Have you a monkey wrench?" "No," said the innmate, "I had no monkey wrench, I had cattle range. Mine brudder Ole had sheep range. My cousin Hennie had horse range, but you tink I'm tam fool sterd monkey wrench? Jist oud!"
